The Cyberage Student Scheme 2014-15 is approved by the Government of Goa and is hereby published for the information of general public.

However, it may be noted that the scheme is an ongoing scheme and is implemented by the Government of Goa, Directorate of Education, since 2001.

Cyberage Student Scheme 2014-2015

Introduction.— With the explosion and penetration of Information Technology in every field of development and progress, knowledge of computers and their use to access and understand the vast repository of knowledge resources available both over the Internet and on local media such as CD-ROMs and DVDs has become an inevitable part of education and knowledge acquisition.

No doubt the computers in the schools have helped meet its limited objectives, but are insufficient to exploit the vast resources available elsewhere, in this present technological advanced world, particularly over the Internet, to drive in Computer Aided Learning (CAL) and to acquire the desired skill-sets for employment/self-employment.

Objective of the Scheme.— The objective of the Cyberage Student Scheme is to equip students with individual portable computer systems/laptops with requisite features and software as tools to—

(i) Enhance not only learning and knowledge acquisition through the Internet, but also through other portable media such as CD-ROMs and DVDs.

(ii) Exploit fully the teaching infrastructure in schools.

(iii) Empower students to acquire desired skill-sets for employment/self-employment.

In order to achieve this, the Government of Goa is pleased to introduce Cyberage Student Scheme as outlined below:

1. *Short title and commencement.*— (1) This scheme shall be called Cyberage Student Scheme.

(2) It shall be deemed to have come into force from the Academic Year 2014-2015. However, due to administrative reasons the same will be implemented during 2015-16.

Today dexterity in Information Technology is of immense importance in progressing in any kind of career. Hence, there is a need to provide extensive exposure to the students studying in Std. XI in the I.T. related skills both in hardware as well as software, at the school level. To provide this exposure to the students and to enable them to access the vast knowledge repositories available over the Internet and through various portable media and to fully exploit the teaching infrastructure available in schools, the students are to be equipped with portable computer systems.

These devices will further help students even after passing out +2 stage either to

continue their IT related studies or to seek employment or get self-employment or use IT as an effective tool for pursuing whichever career they have chosen.

To achieve its objective, the Cyberage Student Scheme shall emphasize on the following:

(1) Provision for the supply of one (01) entry level portable computer system, popularly known as “Notebook” or “Laptop” computer system equipped with at least mid-level Processors, DVD-ROM Drive, Wi-Fi connectivity, multi-media speakers and 14-inch (or more) screen-size alongwith requisite Preloaded Open Standards Supported Operating System backed by premium/comprehensive technical support for at least one (01) year from reputed software companies such as Windows OS.
